Transfer Credits from OnlineDegree.com
Effective from September 9, 2019 to September 9, 2024

DeVry University has developed this Transfer Guide to assist students transferring from OnlineDegree.com to DeVry. This guide doesn't represent all courses required for DeVry programs; rather, it provides a list of courses that, when completed at OnlineDegree.com, may transfer to DeVry. For a complete list of course requirements in each DeVry program, please see the Academic Catalog.

This guide is based on a review of OnlineDegree.com courses by DeVry as of 9/9/19 and is subject to review and modification at any time and without prior notice. Limitations and restrictions may apply.

Associate degree programs in this guide are: Business, Electronics & Computer Technology, Health Information Technology, and Information Technology & Networking.

Bachelor's degree programs in this guide are: Accounting, Business Administration, Communications, Computer Information Systems, Healthcare Administration, Information Technology & Networking, Management, Network & Communications Management, Software Development, Technical Management, and Technical Management – Health Information Management.

Process
Applicants seeking to transfer credit must:
1. Request a formal credit evaluation prior to beginning the first class at DeVry University; and
2. Provide to DeVry an official transcript from the institution where the credit was earned.

Please contact a DeVry University admissions representative to request a transfer credit evaluation. Transfer credit is considered on an individual basis and awarded upon receipt of an official transcript only.

Limitations and Restrictions
Admission and transfer credit applicability are subject but not limited to DeVry University's admission requirements, program requirements, and academic policies, including – but not limited to – the external transfer credit policy. Additional state-specific requirements for transfer credit acceptance may apply.

Note:
- A grade of C (70%) or higher is required for all transfer credits to DeVry University. Courses accepted in transfer may not be applicable to the academic program chosen by the student.
- The number of credits granted for any course equivalency may not exceed the number on the transcript associated with the transfer course.
- Curriculum changes at either institution may affect transferability and applicability of certain credits. A time limit may be imposed on the ability to transfer credits for some courses, especially those in technical or evolving areas.

Provisions of this transfer guide do not constitute a contract, expressed or implied, between any applicant or student and DeVry University. Information contained herein is neither an award nor a commitment to award credit at DeVry University.

DeVry University offers online degree programs, undergraduate certificate programs and programs on campus. Visit www.devry.edu to learn more.

Notes

OnlineDegree.com courses were evaluated for applicability to DeVry University's associate and bachelor's degree programs.

Courses in italics in the tables on the following pages are course area matches. For example, the Natural Sciences course listed in the DeVry curriculum may be in the nutrition discipline; however, science courses in a variety of disciplines (e.g., astronomy, biology, environmental science) may also be used to fulfill this requirement.

Contents
